- Learning outcomes are more clear and personalized for each student. supporting teachers in teaching and student in achieving those learning outcomes.

Learning Accelerator

NO
EFFORT,
ONLY
RESULTS

It works in 3 steps

> Analysis

Our AI-generated Analysis report from the gap analyzer test provides teachers with a report having a 360° view of each student's performance and learning in real-time.

> Remedial/Re-planning

After analysis, our ready-to-use study material is available in the form of Videos, Question Banks, Notes, and exercises, and DPP will be at your disposal whenever you require it or re-plan lessons according to your own method.

> Monitoring

You can monitor individual and overall class progress, weaknesses, strengths, and analysis with a single click so you can know everything about your class and subject.

★ Principal's Dashboard

Enables the principal to view the record and report of every student's academic performance and teacher's classroom usage without any effort

After the Gap analyzer produces the report of current, previous, and skill learning gaps, our learning accelerator provides you a report of detailed 7 types of analysis done for each student.

The report generated contains all the details of the assessment and analysis done for you to monitor.

It refers to obtaining reports of each student's performance analysis to prepare our AI, helping teachers re-plan lessons or provide appropriate remedial for class the process of monitoring the student and the performance.

It works on data-driven insights of students to convert weaknesses into strengths of all learners according to their individual needs, uniqueness, and performance

BENEFITS

- **7 types of detailed analysis for each student and class for every subject provided**
- **Intellectual Skill based analysis based on Bloom's Taxonomy Included**
- **Concept-based in-depth learning analysis Included**
- **The reports generated can help you understand what topics need more attention in your class and which student needs more academic support**
- **The report generated from the Analysis can also be used in PTMs. or other performance review sessions for parents**

About Us

Having served 1800 + institutions around the country and have worked closely with the Indian government on various projects impacting the lives of more than 1 million students by delivering world-class technological and educational solutions.

After 25 years of industry expertise and published research conducted by the founder on utilizing technology to produce better learning outcomes, we embarked on this journey to enhance every school's learning. We want to empower educators in every classroom using unique methods to deliver the optimum learning outcomes for students and help shape the young minds of our country.

Our trademarked Gap Analyzer™ works to find learning gaps for learning enhancement in schools by extracting outcome analytics through our diagnostic assessments to suggest personalized remediation based on an individual's ability to learn as well as their unique skillset. All this is done under the supervision of teachers who can in real-time track a student's progress easily with a click of a button anytime, anywhere.
